RE: Twin Lake Baptist Church
Request for Design and Site Review

Please accept this letter as justification for design and site review to A.P.No. 38-27-802-004.

We request that A.P. No. 38-27-802-004 for design and site review. Currently, parcel A.P. No. 138-27-802-004 is zoned C-1 Commercial with non-limited building height with our setbacks as follows: front yard- 20 feet; side yards- 10 feet; and rear yards- 10 feet. This project was previously reviewed by the City of Las Vegas in 2004 where the building was on the northwest parcel. The trail will remain as planned and we will comply with all C-1 requirements on the parcel. The parcel will be used for a proposed two-story mixed-used worship center of approximately 31,126 square feet. The previously approved building is being moved to the larger parcel for phase one of the development.

The church is also requesting to leave the previously approved modular building adjacent to the area that will be the west of the building of the project. The Phase I building will be open December 2007. The Church presently has facility on Vegas Drive and is requesting the use of the modular building be allowed to be placed on the site as shown on the attached drawings, for office and conference meeting space until their Phase I building is constructed.

Sincerely,

Lendall Mains, FCSI, AIA
